Welcome to KidzHub Nursery School

Where children grow, explore, and thrive

About Us

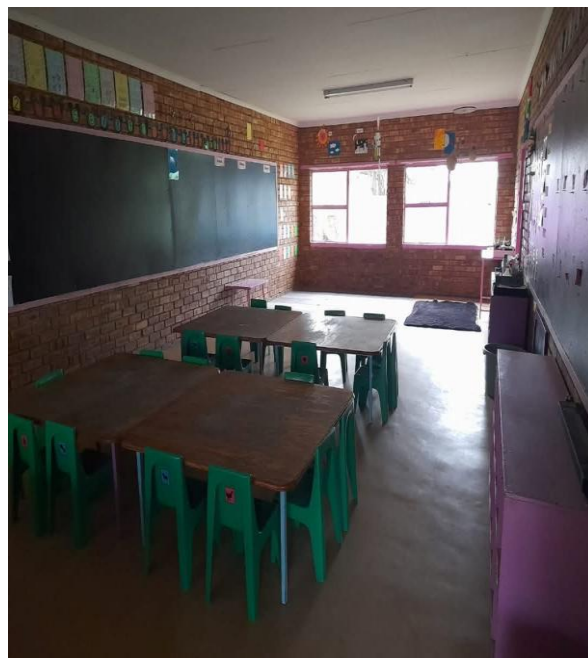

KidzHub Nursery School is a warm, nurturing preschool located in the Die Heuwel area of Emalahleni.

We offer a unique, well-rounded early childhood development programme designed specifically by KidzHub, catering to children from 3 months to 6 years of age.

Our classes are kept small, with a maximum of 10 to 25 children per class (based on age), to ensure each child receives the care, attention, and stimulation they need.

Our school also offers full-day options, early drop-off from 06:30, and holiday care all at no additional cost.

Our Approach

At KidzHub, we support each child's holistic development[‡] physically, emotionally, socially, and cognitively[‡] by focusing on Early Learning and Development Areas (ELDAs), rather than rigid milestones. This allows children to learn at their own pace in a pressure-free environment where they feel supported, valued, and encouraged.

Our Learning Areas Include:

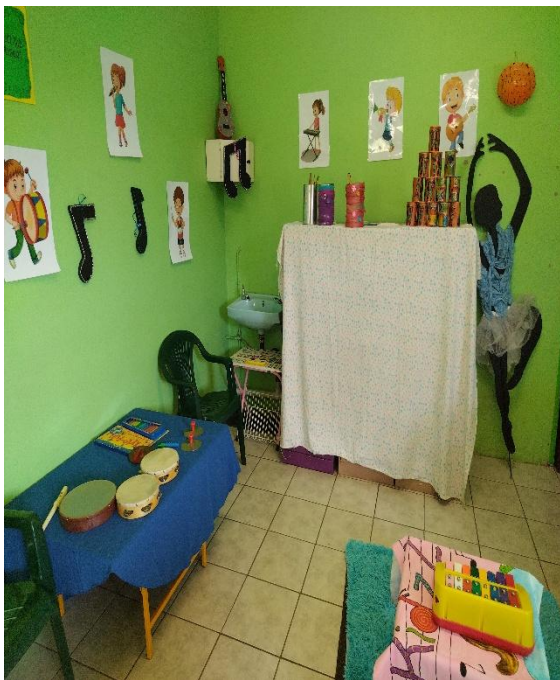

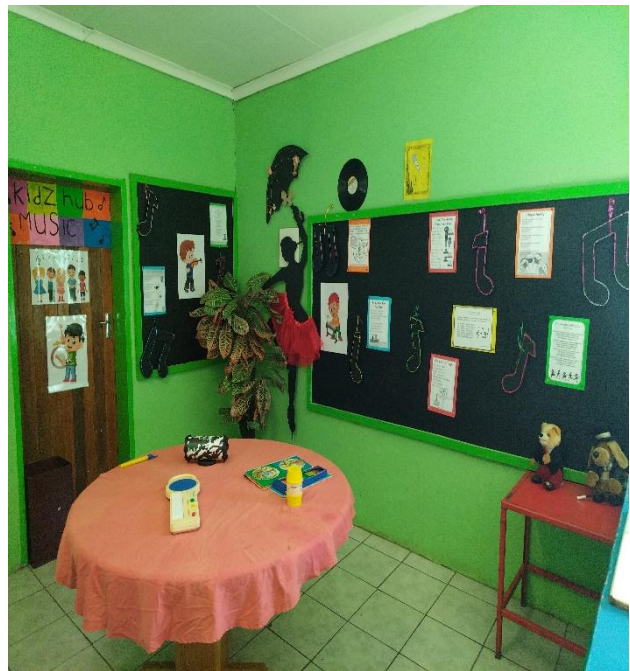

- Identity and Belonging, Personality, friendship, sharing
- Physical Well-being, Balance, movement, safety
- Communication, Speech, listening, understanding
- Creativity, Drawing, painting, dancing, imagination
- Mathematics, Shapes, size, time, counting
- Learning About the World, Exploring and understanding the world around us.

Edu Centre Indoor Programme

As part of our commitment to offering a rich and engaging learning environment, KidzHub Nursery School features a dynamic indoor programme called the Edu Centre.

This dedicated space gives children the opportunity to explore a variety of stimulating areas, including:

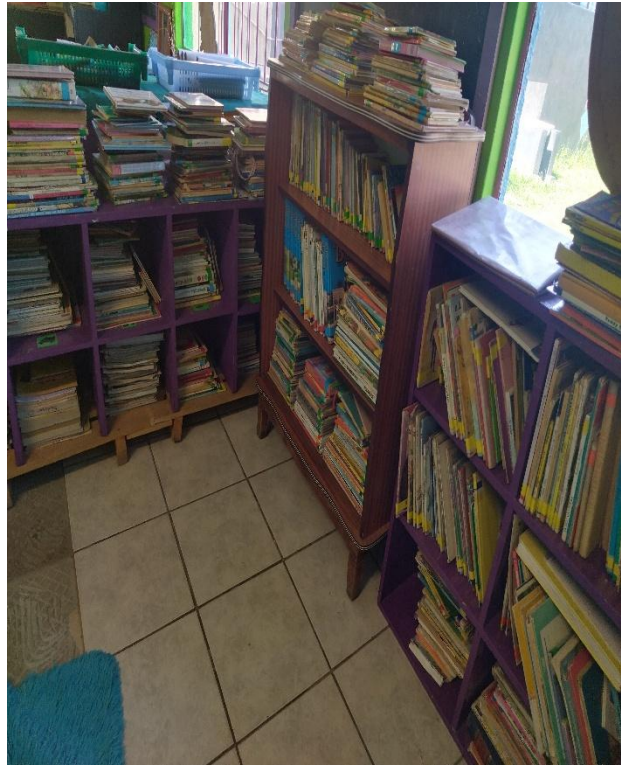

Music Corner for rhythm, movement, and self-expression

Fantasy Play Area to encourage imaginative role play and social interaction.

Library fostering a love for books and early literacy

Sensory Play Zone stimulating senses through touch, sound, and texture. Weekly Science Experiments – sparking curiosity and foundational scientific thinking.

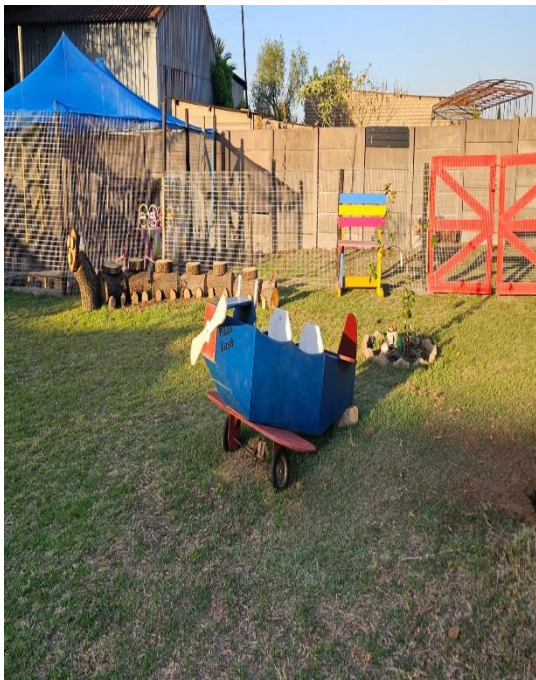

Through these hands-on, exploratory experiences, the Edu Centre supports creativity, language development, emotional growth, and cognitive skills in a fun and inviting way.

Funky Farm Programme

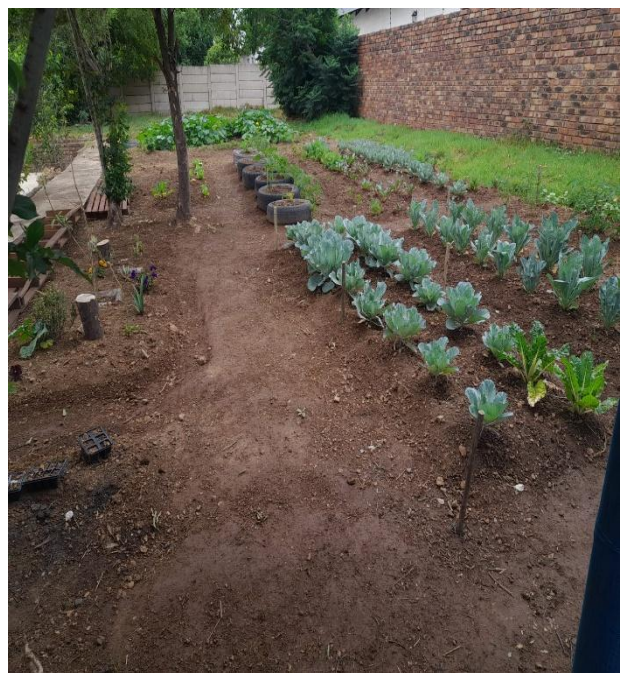

One of the highlights at KidzHub is our Funky Farm programme, where children engage directly with farm animals.

Learners enjoy hands-on experiences such as feeding and caring for animals, helping them build empathy, responsibility, and a love for nature.

We also have a vibrant vegetable garden, where children learn about planting, growing, and harvesting their own vegetables. The process begins inside the classroom, where they observe and care for the germination of seeds[†] offering a rich and exciting learning experience rooted in nature and science.

Daily Programme & Activities

Our daily programme is thoughtfully structured to cater to the developmental needs of children at different age levels. Each day is filled with a balanced mix of age-appropriate activities designed to support physical, emotional, social, and cognitive growth. We believe that children learn best through a combination of structured play, guided exploration, and hands-on, discovery-based learning experiences.

We follow a consistent daily routine that provides children with a sense of security and predictability. Our programme is carefully aligned with the Early Learning and Development Areas (ELDAs), ensuring that all key areas of a child's development are addressed throughout the day. Activities are adapted according to the age group, allowing each child to learn and grow at their own pace while still reaching important developmental milestones.

The day begins at 8:00 AM with a healthy breakfast, giving children the nourishment they need to start the day. Classroom activities run from breakfast until 10:00 AM and include learning through play, stories, music, movement, and age-specific educational tasks. At 10:00 AM, it's time for a snack from the child's lunchbox, followed by supervised free play which encourages creativity and social interaction.

At 11:30 AM, children are served a warm, nutritious meal prepared by the school. After lunch, there is a rest period from 12:00 to 2:00 PM, allowing children to recharge for the afternoon. Snack time follows the rest period, offering a light refreshment before the afternoon session begins.

Afternoon activities are prepared by our educators and are designed to reinforce the morning's learning in fun, interactive ways. These may include outdoor play, sensory activities, creative arts, and more. In addition, we have dedicated routines and schedules for special areas such as the Funky Farm and our Education Centre, offering unique opportunities for environmental learning and enrichment.

Overall, our daily schedule is dynamic, engaging, and developmentally supportive, ensuring that every child receives a well-rounded early education experience.

Healthy meals

We are committed to providing healthy, balanced meals that support the growth and development of every child. The school offers a nutritious breakfast each morning to help children start their day with energy and focus. At 11:30, we serve a freshly cooked meal that includes a variety of food groups, carefully planned to ensure children receive essential vitamins, proteins, and other nutrients they need to thrive.

We place a strong emphasis on healthy eating habits and offer meals that are both delicious and wholesome. Our menu includes fresh vegetables, many of which are grown in our very own school garden, allowing children to enjoy seasonal produce and learn about where their food comes from. In addition to meals, we provide all drinks throughout the day, keeping children hydrated with water and other drinks.

An afternoon snack is also provided after 2:00 PM, giving children a boost of energy to carry them through the rest of their activities. Overall, we aim to instil positive eating habits and a love for nutritious food from an early age.

Large playgrounds- Babies and potty-trains have their own separate playground.

We also offer optional extramural activities such as dance, sport, and music[†] conducted by qualified external coaches or tutors. Most activities are hosted on-site and available at an additional cost.

Quick Facts

- ✓ Languages: English & Afrikaans
- ✓ Ages: 3 months to 6 years
- ✓ Class Sizes: Maximum 10-25 learners (age dependent)
- ✓ Fees: R2,600 per month (full day)
